

## **Publication Scheme for Welland & Deepings Internal Drainage Board**

### **What is and why does the Welland & Deepings IDB use a Publication Scheme?**

The Freedom of Information Act 2000 (“the Act”) gives a general right of access to recorded information held by public authorities and sets out exemptions from that right and places a number of obligations on public authorities. Welland & Deepings Internal Drainage Board (“the Board”) is deemed to be a non-departmental public body for the purposes of the Act. Further information about the Act can be obtained from The Information Commissioner (<http://www.ico.gov.uk>)

The Board is required to adopt and maintain a publication scheme setting out the classes of information it holds, the manner in which it intends to publish the information, and whether a charge will be made for the information. The purpose of a scheme is to ensure a significant amount of information is available, without the need for specific request. Schemes are intended to encourage organisations to publish more information proactively and to develop a greater culture of openness.

### **What Information is routinely available?**

Where a class contains information which may levy a charge this is made clear with a £ symbol shown below. In adopting this scheme there has been an effort to be as open as possible but there are instances where, for legitimate reasons, certain information is not available. Where this is the case the reasons behind the decision to exclude certain information is clearly stated. Justification for excluding information is made in consideration of the general exemptions contained in the Act, the Environmental Information Regulations, the Data Protection Act or where it may be of a confidential or commercially sensitive nature.
